

Miami Mineralogical and Lapidary Guild

Where South Florida Really Rocks!

The Geode – The MMLG Monthly Newsletter

Volume 60, Number 5

May 2015

Our May General Meeting will take place on Wednesday May 6 at 7:45 PM at the MIAMI SCIENCE MUSEUM, 3280 South Miami Avenue, directly across the street from Vizcaya.

Our program will be a video presentation on OPALS! What they are - where they're found - how you can find your own! (Yes, there are Opals to be found in the U.S.) We'll also have information on Opals from Ethiopia.

Our meeting will also feature announcements, Q & A, refreshments, and Patrick's legendary gem-and-mineral raffle. We hope to see you there!

(Please note that this will be our last General Meeting of the Season. Based on very low attendance in the Summer, we have suspended our June-July-August meetings for several years now. However, we will continue to hold our 4th Sunday Show-and-Tell Event at The Miami Science Museum throughout the Summer.)

Club News –

- Our second GEM, MINERAL, FOSSIL, AND JEWELRY SHOW at Evelyn Greer Park in Pinecrest last month was such a huge success that we're making it a regularly-recurring activity. We increased the number of vendor tables, as well as exhibit, displays, and demonstrations. Since ours is a "club show", we encourage participation by our members before opening vendor opportunities to folks outside our club.

The next Show will take place on Saturday & Sunday December 5 & 6. We'll send out information about the Show in September, however, if you have any questions, please contact us at webguy@mmlg-inc.org.

- If any of you have photos or video of last month's show, please email us at webguy@mmlg-inc.org. Once we have copies of all videos/photos, we'll post them on our web site.

- One of the ways in which we try to serve our members' needs is by providing a no-cost way to *buy-sell-trade* gem/mineral/lapidary-specimens/supplies/crafted items in an online "trading post" at our website. Right now, we have no postings, but, in the past, several of our members and supporters have successfully listed (and sold) specimens, equipment, and supplies. Just go to our website www.mmlg-inc.org and click on "trading post" to get started.

- Dues are due! The membership year starts every January 1. Single membership is \$15.00 per year - Family membership is \$20.00 per year. Dues are payable either by cash or check (made out to MMLG). You may pay the dues in person at our meetings & events or by mail to MMLG, P.O. Box 460206, Fort Lauderdale, FL 33346-0206.

What are the advantages of membership? While any member of the community may attend our General Meetings, dues-paying members are entitled to a number of benefits:

- participation at all club activities
- discounts on publications and outside educational activities
- access to club library, displays, and collections
- accidental injury insurance on field trips and at club activities
- discount access to club sponsored classes and workshops
- special interest groups within the club
- access to club swaps, raffles, auctions, and vendor activities
- voting rights at club elections, meetings, and referendums
- co-ordination with other clubs, groups, or associations

- Our newsletter accepts business and commercial advertising. The Guild charges \$35.00 per year to advertise a "business card" listing in **The Geode**. This amounts to just a few dollars per month – call us or email us to set it up. Additionally, if any hobby-related advertisers present a program (on any Guild related subject) at one of our meetings, the yearly fee of \$35.00 will be refunded!!!!

- Any member wishing to serve on a committee and/or present a program should contact John Speier, at 954.648.1874.

WILDACRES

Our club is an affiliate of the *Eastern Federation of Mineralogical and Lapidary Societies (EFMLS)*. One of the benefits of that affiliation is the opportunity to sharpen our skills and deepen our appreciation for our unique common interest in special workshops conducted at *Wildacres*, a Western North Carolina conference center dedicated to the betterment of human relations. The facilities are used by educational and cultural groups such as music, art, mineral & lapidary classes, and religious, interfaith, civic, and science seminars. More than 80 diverse groups participate in a typical Wildacres season.

EFMLS sponsors Spring and Fall Workshops there that some of our fellow MMLG members have attended. (Some of our long-time members have even been instructors there!) This your opportunity to indulge your passion for minerals, gems, jewelry, and craft. There are entry- and intermediate-level short classes and fabulous programs from their great Speakers-in-Residence. Form new friendships and deepen old ones.

Do it all at *Wildacres*, a beautiful retreat center atop the Blue Ridge Mountains.

For complete details, contact info@efmls-wildacres.org
